

Features

Combine a Simplex visible notification appliance (strobe) with a compatible audible notification appliance:

- Strobes are typically mounted below the audible appliance (often required with large diameter bells that extend upward from the striking mechanism)
- Where appropriate, strobes can be mounted above the audible appliance

Compatible Simplex strobes are available with the following features:

- Intensity is available as 15 Cd, 30 Cd, or 110 Cd
- Strobes have red housings with white “Fire” lettering
- Refer to data sheet S4904-0008 for additional strobe information

Strobes and audible notification appliances are ordered separately

Two versions are available:

- **4905-9921** is for semi-flush mounting on 4” (102 mm) square electrical boxes
- **4905-9925** is for surface mounting on Simplex 2975-9145 boxes

Modular design allows strobe to be paired with a variety of audible notification appliances to suit local requirements

UL Listed to Standard 464

Description

Standard Simplex 4903 series audible/visible appliances combine high intensity strobes with integral horns and speakers. For special applications requiring bells, chimes, or other audible notification appliances, these modular adapters allow a separate 4904 series visible notification appliance to be mounted on the same electrical box as the required audible notification appliance.

Model 4905-9921 is for semi-flush mount using standard 4” square electrical boxes.

Model 4905-9925 is for surface mount using the Simplex 2975-9145 box.
